**Re: In the Matter of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

The current climate for residential internet is horrible. If you take away local competition you will condemn residents to some of the most mediocre internet service out there. The big companies simply do not care about operating with any sort of integrity and their services are universally despised. I chose a competitive local provider (SONIC) because they offered me exactly what I wanted at a competitive price. I don't want a landline or cable TV, in fact most people under the age of 40 have little interest in any component of the silly "bundles" AT&T and Spectrum have to offer. Do not condemn us residents to a lifetime of purchasing archaic phone lines and cable packages; these are the bones of a world almost totally dead but for the predatory domination of Big Internet.
